

ABRERA FAMILY TREE

Originally from Palawan, Philippines

Version 3 – 2 June 2019

INTRODUCTION:

This is one of the standard print-outs of the Family Tree Maker Genealogical Software. The Introduction and Index were edited in.

Data was downloaded from the Sityar Tribal Pages website which included the Abrera clan:

<http://tinyurl.com/h8rqk3z>

Website is maintained by the following administrators:

Frank Sityar at frank_sfcombo@yahoo.com (US-based, West coast)
Gigi Gonzalez-Matias at margie_matias@yahoo.com (US based, East coast)
Rory Abrera-Campbell at Canikiisle@aol.com (US, Texas based)
Manny Sityar at sityarmanny@yahoo.com (Philippine based)

Majority of the data in this printout came from a graphical file provided by Rory Abrera-Campbell that was made by her nephew Fabian Mangahas in 2010 using Powerpoint. Data was refined after email exchanges with family members, and after some more research and analysis on the internet on public domain blogs and Face Book.

The format of the print-out is as follows:

1. Arabic numeral prefix to each name is a unique number for each individual.
2. Names with a hashtag # prefix means that the name will appear again in later generations, in reference to their children.
3. Roman numeral prefix is the order of birth for siblings.
4. Small superscripted numbers indicate generational level of individuals.
5. Parenthesized names after emboldened name are forebears or bloodline of individual.
6. All years shown are estimated dates of birth when prefixed by “about”.
7. Where full names are unknown, XXX, YYY are used.

We enjoin the clan members to make corrections/updates as may deem fit, such as filling in the correct names, DOBs, additional children and/or siblings, preferred deletions, etc. If sent back to the administrators listed above or to prime administrator <ferngil@aol.com>, we will update the database and reissue a new printout.

Last portion is the index which lists all the members alphabetically, and their corresponding reference number.
