INTRODUCTION:

This is one of the standard print-outs of the Family Tree Maker Genealogical Software. The Introduction and Index were edited in.

The print-out is generated from a name listing as encoded into the “Genealogical Project“ database gathered from various sources over the years. This is a project to trace the inter-relational linkages between various families by bloodline or marriage.

The bulk of data came from a file submitted by Arlene D. Pastor in 2012 on the Mariano Pinili Family Tree, as a response to a request for data on the Teves and Villanueva family trees, which are much interrelated.

The Pinili Tree introduction cited major inputs from Ina Bonnevie Teves, Penn T. Larena Jr. and Joseph Rivera. All are active in their respective family websites. More data with birth years came from the Lasola / Malay / Manlapaz Family Tree files of Enrique Cariño. These are also interlinked with the Pinilis.

All of the data from the above mentioned sources were merged into the database and checked for redundancy as much as reasonably possible.

Unique in the database is that all individuals are shown with a birth year. Most are interpolations, based on guideposts of known birth years, and are prefixed by Abt (about). These dates are necessary in a large database where new entries are more easily cross checked for duplication with existing data. It must be noted that many of the birth years may be significantly off, since the order of births of siblings may be inaccurate, and/or incomplete.

This is NOT THE OFFICIAL PINILI FAMILY TREE.

That information is with the aforementioned sources. It has vignettes, photos, historical sketches of prominent members, etc.

Rather, this is a printout of the bloodline from the earliest Pinili on the database, presented mainly for easy reference to those others who are familiar and/or are linked with the clan. There are 2,567 individuals in the bloodline and 970 spouses or partners, all catalogued in the Index.

This is a public service of the Tanjay Association of USA to collate as many of the major family trees in the province.

The list can be viewed on the site below:

<http://tanjaycity.org/familytrees/famtrees.html>

Updates are periodically made as evidenced by the dated version numbers.

However, an interactive but simpler website generally shows more current updates. This family tree also is viewable in various formats on the link below:

<http://tanjaygenealogicaldatabase.tribalpages.com/tribe/browse?userid=tanjaygenealogicaldatabase&view=6&pid=22601&ver=26073>

The format of this print-out is as follows:

1. Arabic numeral prefix to each name is a unique number for each individual.
2. Names with a hash # prefix means that the name will appear again in later generations, in reference to their children.
3. Roman numeral prefix is the order of birth for siblings.
4. Small superscripted numbers indicate generational level of individuals.
5. Parenthetized names after emboldened name are forebears or bloodline of individual.
6. Where full names are unknown, XXX are used, or other descriptive titles.

Last portion is an Index with all alphabetized names and their reference numbers.

There most likely are errors, as some of the early members linkages to each other may be conjectural, and/or some of the data supplied was wrong to start with.

We enjoin the clan members to make corrections/updates as may deem fit, such as filling in the correct names, years, additional children and/or siblings, preferred deletions, etc. If sent back to <ferngil@aol.com>, we will update the database and reissue a new printout.
